

Good morning,

It is such a nice day and one we are thankful for though cold. How is the Family doing? Yesterday I heard that my brother and wife (Roslyn) are under the weather with the flu. For New Yorkers it is a bad strain and you have to be very careful now we are getting deeper in the winter.

I trust that this enegetic couple is doing well today and they wil be back to work soon. I was pass through today but will put it off till next week.

Have a great day all.

Godfrey Gregg
