#### 11 Signs The Law of Attraction Is Working For You

The now very popular idea called "The Law of Attraction" says that you can attract either negative or positive experiences or people into your life based on your thoughts and intentions. Whatever you think most about will eventually manifest into your life. So, if you focus on problems, you will have more of the same. If you focus on solutions and the good things in your life, you'll find opportunities.

Our thoughts have always created our reality, and the concept isn't really new. However, The Law of Attraction, greatly popularized by the book and film "The Secret," is simply a phrase to describe this universal truth.

So, how do you know if the law of attraction is working for you?
