

ROAD ACCIDENTS ARE CAUSED BY GHOSTS- REVEALS MINISTER
OF TRANSPORT JOSEPH MASWANGANYI

Saying that he is very concerned about the ever increasing number of accidents on South African roads, especially at night, Minister of Transport **Joseph Maswanganyi** requested pastors and traditional healers on Monday afternoon to come together and fight against evil spirits causing accidents on our road.

Minister Moswanganyi explained that if there were no ghosts on our roads, our country would be accident-free.

“Ghosts cause a lot of accidents on our roads. Pastors and traditional healers must please help us to fight these evil spirits. I don’t know where they come from but we can’t afford to lose any more of our beloved South Africans on the roads. If we didn’t have ghosts we wouldn’t have accidents.” he said.

Moswanganyi explained that he once almost had an accident while driving at night. He didn’t have an accident, but instead, he had an incident.

“A woman dressed in white just appeared in the middle of the road while I was driving one night. I messed my pants. But at least I didn’t die.” Moswanganyi said.
