

Bequia's New Hospital

Smiles are on the faces of Mrs. Simmons and Mrs. Hutchinson as they receive from the Bequia Mission medical supplies that will aid the hospital in promoting proper health. The supplies, valued just over USD 700 were handed over to the nurses at the Bequia Hospital by Bequia Mission's onsite administrator Jason Sargeant. The nurses thanked the Bequia Mission for their continued support to the hospital and the community of Bequia as a whole. Bequia Mission would also like to extend appreciation to one of Bequia Mission's directors, Miss Linda

Harrier for making this donation possible.
