

To a nephew who turns a year older I want to thank God for him and where he is today. Boy how life change so fast and sometimes furious. You have steer the course we'll and looking back to see how you made it, married with 3 beautiful children and a Staff Sergeant in the military. I cannot look for more at this age.

The sky is not the limit, keep reaching until you find your perfect rest. One person missing out your life is your grandmother (mamma), but she is so proud of you. I know the way she expressed her love for you. Unfortunately, she has been called from this world to a better place.

The Gregg 784 page and group along with www.gregg784.com join me to wish you all the best on this special day of birth date celebration.
