Being a mother is not easy but the way you have brought up your

children make all of us so proud of you. Dear sister-in-law, wishing

you a warm and very Happy Mother's Day.

×

I wished there was another way to say it and though every day is Mothers Day, this is a

special occasion for you to celebrate. You deserve all of the honour and praise for all that

you do. You are an excellent mother and sister. You are loved more than you may ever

know! Happy Mother's Day!
