

ntries who annex the Grenadines to their country name. In their advertisement, you read "Barbados and the Grenadines", and "St. Lucia and the Grenadines". They know just like us that there are no such Island states. Anywhere you look on the world Atlas you will only see St. Vincent and the Grenadines just like only one https://www.facebook.com/Sunburst-Apartments-2064723857076970/.

My question is who is benefitting from this tourism package offered to the visitors. Everyone knows that the Grenadines is unique and like "heaven on earth". They are trying to take the bread out of the mouths of the 120,000 citizens living in the state. The Government od=f St. Vincent and the Grenadines should put a stop to the practice and let every tub sits on its own bottom.
