

*Sir Godfrey Gregg*

Humans have unique DNA. Fingerprints are an original copy of their owners. Genuine and God-fearing mothers are a gift from God.

This Mother's Day, I wish to thank God for giving me a loving and nurturing mother who sacrificed a lot, toiled to give me and my siblings a peace of mind and most importantly grew me up in the way of the Lord. I think the best thing she did was making sure I had secure my salvation.

A hearty thanks and a blessed Mother's Day to Hannah Stowe-Gregg. May you live to see more with our daughter Sharol- Rose and our two beautiful grandchildren Lemar and Shammie and most important the return of our soon coming king.

God bless you!!
